Application Process

1. Complete the application form on this website or return it to the office of the Soil and Water District.

2. After your application has been received, a county soil conservation district staff member will contact you to discuss the details of the program.

3. If your project meets the program requirements, the grant partners will discuss the project to determine if it is eligible for funding. The grant partners will submit their recommendation to the Soil and Water District.

4. Your project is recommended for funding if:
   - Your project is a priority and
   - The risk assessment is low.

5. Depending on availability of funds, projects may be able to be installed.

Please contact Mary Bosan at 208-779-3446 or lowerboisewatershed@outlook.com for more information on the application process and technical assistance available.
